

FOR IMMEDIATE RELEASE

Introducing Kadin Tables

Kadin is an elegant definition of a table: a floating top surface, polished aluminum legs and a modular steel substructure for exceptional stability. Table depths start at 36 inches, available widths are almost limitless. Surfaces are offered in architectural grade veneer and high-pressure laminate.

Kadin adds modern flair to your meeting space. From formal conference rooms to intimate meeting spaces or open forums, Kadin fits wherever people meet. Choose from round, square or rectangular tops in a variety of sizes with multiple edge options. The beautifully sculpted leg support maximizes leg clearance to keep guests comfortable. Extending from the leg support, the beam structure and connectors create visual interest as people come together. Pre-configured base assemblies make it easy to specify.

Kadin tables are Level 3 and Greenguard certified, and backed by Global's lifetime warranty.
